Australian-owned and operated since 1926 and with branches nation-wide, Welling & Crossley is today an internationally recognised leader in the manufacture and supply of Diesel Generators, Diesel Engines, Fire Control Systems and Tractor Pacs.

DIESEL & ELECTRIC FIRE PUMP CONTROLLERS

Welling & Crossley is a leading provider of Diesel and Electric Fire Pump Controllers and components to the fire protection industry. Supplying products for automated fixed fire sprinklers and hydrant installations, all of our fire pump controllers are fully compliant with strict internationally recognised Australian standards. What's more, our fire pump controllers are completely factory wired, assembled and operation tested prior to shipment.

DIESEL FIRE ENGINES FROM 6.5 TO 736 KVA

Welling & Crossley offers a large and diverse range of high quality diesel engines, branded as *Crossley Engines*. Crossley Engines is a bi-brand of Welling & Crossley offering diesel engines ranging from 6.5 kVA to 736 kVA specifically for fire applications. All Crossley Engines have been designed to withstand the demands of Australia's toughest operating conditions, whilst delivering smooth operation and reduced vibration for longer lasting performance.
